Fiscal Impact/Funding Source

The fiscal impact of this contract award will be approximately \$588,507.54. The base contract amount is \$520,461.40, exclusive of contingency and dedicated allowance amounts. There is no fiscal impact to operations or maintenance. The funding is provided by the Florida Department of Transportation

(FDOT) through the Safe Routes to Schools (SRTS) Program under fund CO 331 OTHER CAPITAL PROJECTS/PW REIMB. AND GRANTS. In the event upfront funding is required, index code CPEMTP00SAFE under fund CO 325 OTHER CAPITAL PROJECTS/PW PEOPLE'S TRANSPORTATION FUND will be used, and will be reimbursed by FDOT funds.

A Local Agency Program (LAP) Agreement between Miami-Dade County and FDOT was approved under Board Resolution No. R-667-13 and a Supplemental Agreement was approved under Board Resolution No. R-601-16 to increase the funding allocation. The LAP and Supplemental Agreements provide the County, with up to \$612,342.00 in SRTS funds to reimburse the County, for the construction of safety related infrastructure improvements at five (5) schools located in Miami-Dade County. This total does not include a contingency for unforeseen conditions.

Delegation of Authority

No additional authority is being requested within the body of this Contract.

Track Record/Monitor

Maggolc, Inc. is currently performing work for DTPW at a satisfactory level. DTPW has reviewed the Capital Improvements Information System (CIIS) database and found 35 awarded construction contracts as follows:

- One (1) from the Corrections and Rehabilitation Department
- Two (2) from Miami-Dade Fire Rescue
- Two (2) from the Public Housing and Community Development Department
- Four (4) from the Department of Transportation and Public Works
- Seventeen (17) from the Parks, Recreation and Open Spaces Department
- Eight (8) from the Department of Solid Waste Management
- One (1) from the Water and Sewer Department

The referenced database also lists a total of 34 contractor performance evaluations with an overall performance rating of 3.6 out of a possible 4.0 rating. The Small Business Development Division (SBD) History of Violation's report lists no violations for this contractor. According to the Florida Department of State, Division of Corporations, Maggolc, Inc., the company principal is Mario H. Gonzalez and the company's address is listed as 11020 SW 55 Street, Miami, Florida, 33165.

Following DTPW's standard operating procedures, after award of this Contract, a pre-construction meeting will be scheduled. Following completion of the award process, the project will be assigned to Oscar Rubio, Project Manager, DTPW, for day-to-day responsibilities.

Background

As part of the PTP Neighborhood Improvements initiative, DTPW continues to take advantage of various contracting mechanisms such as the Miscellaneous Construction Contracting process available under the MCC 7360 Program.

Through this process, DTPW forwards a Request for Price Quotation (RPQ) to a pool of firms that have registered with the Internal Services Department for the respective trade. Additionally, DTPW advertises the project in the *Daily Business Review* and all solicitations are available on-line through the Miami-Dade County portal under the "Procurement Solicitations" link. The project's award evaluation is based upon the bid submitted by the lowest responsive, responsible bidder for the project.

DTPW submitted its contract measure recommendation for Disadvantage Business Enterprise (DBE) participation for this RPQ to SBD. SBD completed its Project Review and Analysis and established a 9.91 percent DBE participation goal. A Community Workforce Program Goal was deemed not applicable to this RPQ.

On February 11, 2016, DTPW forwarded RPQ No. 20150148, utilizing the MCC 7360 Plan – CICC 7360-0/08 Contract, to a list of 120 pre-qualified firms. None of the firms purchased contract documents and four (4) firms proffered a bid.

On March 16, 2016, Maggolc, Inc. proffered the lowest responsive and responsible base bid of \$520,461.40, seven (7) percent above the County's cost estimate. The difference between the engineer's estimate and the lowest bid was a result of the time period between when the estimate was provided to FDOT as part of the LAP Agreement approval, and the eventual receipt of bids. Through approval of the Supplemental Agreement (Resolution R-601-16), FDOT has agreed to increase the funding allocation to account for the increased costs. The second lowest bidder, R&D Electric, Inc., proffered a base bid of \$574,662.00, 18 percent above the County's cost estimate. The third lowest bidder, AUM Construction, Inc., proffered a base bid of \$576,576.00, 19 percent above the County's cost estimate. Based on the results of the solicitation, DTPW issued a recommendation for award on August 8, 2016 for RPQ No. 20150148 to Maggolc, Inc., with the stipulation that approval for this project must be obtained from the CITT and the Board. A copy of all bids and the bid tabulation for this Project are available by contacting the DTPW Capital Improvements Manager.

The work to be accomplished for this project consists of, but is not limited to, furnishing all supervision, labor, required materials, equipment, and tools to perform all operations necessary to add/upgrade pedestrian indication heads and push buttons at signalized intersections, install school speed zone signs and flashing beacons, school crosswalk signs, pavement markings, sidewalks, and pedestrian ramps.

The purpose of this Project is to enable and encourage students up to eighth grade to walk and/or bicycle to and from school; to make walking and bicycling to school safer and more appealing; and to facilitate the planning, development, and implementation of project that will improve safety and reduce traffic, fuel consumption, and air pollution in the vicinity of schools.
